Francisco and Evelyn,

Please find attached a revised draft permit for VA0081946 addressing EPA's Specific Objections.

Per our response letter dated February 5<sup>th</sup> and our telephone conversation of February 6<sup>th</sup>, our agency has revised the draft permit.

The revisions include permit language regarding no net increase in pollution load for the watershed, clarifying WET requirements, and specifying pollution offset demonstrations. The revisions are highlighted in the document.

The additional information that has been requested of the applicant as noted in the revised factsheet language should be available soon.

Pease contact me if you have additional questions.
